SKILLS

Languages: Python, C, C++, Java, Kotlin, XML, SQL

Libraries & Frameworks: NumPy, Pandas, Matplotlib, Scikit-Learn, TensorFlow, HTML, CSS, JavaScript

Tools/Platforms: Excel, Power BI, Android SDK, Big Data, Git, GitHub

Soft Skills: Problem-Solving Ability, Team Collaboration, Time Management, Adaptability

INTERNSHIP

Data Analyst Intern

Ratial Home Services Pvt. Ltd. | ratial.com

Mar 2025 – Aug 2025

Analyzed customer booking & service datasets using Python, SQL, and Excel; cleaned and transformed raw data to significantly improve reporting accuracy. Designed and maintained Power BI dashboards tracking 10+ KPIs — user retention, booking rates, service performance — for product and ops leadership. Generated weekly/monthly insight reports via EDA; collaborated cross-functionally to identify workflow bottlenecks and recommend data-backed improvements.

PROJECTS

Predictor – AI - Powered Financial Analytics platform | [GitHub](#)

Oct 2025 - Apr 2026

- Deployed a full-stack Flask-based trading platform with **LSTM-powered stock prediction**, live market news, TradingView ticker, career & login system, and integrated trading resources (strategies, books, broker directory).
- Developed an AI-driven stock prediction system using **Keras/TensorFlow** with **EMA-based visualizations** and real-time data from Yahoo Finance; enhanced user experience with chatbot, dark/light UI, and downloadable analytics.

Tools: Python, Flask, TensorFlow, Keras, LSTM, NLP, Pandas, NumPy, Matplotlib, Bootstrap 5, JavaScript

Real-time Weather & Air Quality Dashboard | [GitHub](#)

Aug 2025 – Nov 2025

- Built an interactive Power BI dashboard consuming live **REST API** data, transformed via **Power Query** and **DAX**, to monitor weather and air quality trends.
- Implemented a 7-day predictive forecast feature with dynamic KPI cards to support data-driven environmental decision-making.

Tools: Power BI, Power Query, Dax, Rest APIs

Electric Vehicle Population Data | [GitHub](#)

Apr 2025 - May 2025

- Performed in-depth EV adoption analysis using **Excel PivotTables**, uncovering adoption trends by region, manufacturer, and model year.
- Replicated and extended the analysis in Python (Pandas, Matplotlib, Seaborn) to deliver richer **EDA** and automated **visualizations**.

Tools: Python, Pandas, Matplotlib, Seaborn, Excel

TRAINING

Android Development Engineer | [GitHub](#)

Jun 2025 – Jul 2025

NurtureNest – Android Parenting & Wellness App

- Built Nurturenest, an interactive android app demonstrating strong command of **Kotlin, XML, Android SDK**, and Material Components, offering personalized parenting logs and daily tips. Designed dynamic layouts, event handling with Snackbars, Dialogs, Intents, and Alarm Manager-based notifications. Managed internal/external storage, CRUD operations, real-time UI updates and packaged APK for play store deployment

Tools: Kotlin, XML, Android SDK, Material Components

CERTIFICATES

ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM | [Infosys](#)

Aug 2025

Android Developer Pro: Hands-On Projects and Play Store Launch | [LPU](#)

Jul 2025

Privacy and Security in Online Social Media from IIIT Hyderabad | [Neptel](#)

Apr 2025

Software Engineering: Implementation and Testing | [Coursera](#)

May 2024

EDUCATION

Lovely Professional University

Computer Science and Engineering | CGPA: 7.3

Punjab, India

Since Aug 2023

Global International School

Intermediate: Percentage: 65

Muzaffarpur, Bihar

Mar 2021 – May 2023
